

Open Data Resources and Strategies - Efficient Discovery and Use of Global to Local Open Data

Karl Benedict

Director of Research Data Services, College of University Libraries and Learning Sciences

University of New Mexico

kbene@unm.edu

Presentation Outline

- Introduction
- Current Context
- Where & How You Can Get Stuff
- Interlude - Where Your Stuff Can Go
- Demonstrations of Search Interfaces and Automated Interactions via Web Services

The geospatial data
community has a
long tradition of
Open Data and Data
Sharing

The geospatial data
community has a

access

FGDC - *Content
Standard for Digital
Geospatial Metadata*

ISO - 19115,
19115-2, 19115-1
and related standards

- Open Geospatial Consortium
- Web Map Services (visualization)
 - Web Feature Services (WFS - data access, vector)
 - Web Coverage Services (WCS - data access, raster)
- ... and many others

The rest of the Open
Data community is
playing catch up -
quickly

The rest of the Open
Data community is
playing catch up -
quickly

Drivers

The rest of the Open Data community is playing catch up - quickly

- President Barack Obama - *Memorandum on Transparency and Open Government* (Jan 21, 2009) ⇨
- OMB Memorandum M-10-06, *Open Government Directive* (Dec 8, 2009) ⇨
- data.gov - Announced in Mar 2009, went live in May 2009
- President Barack Obama - *Memorandum on Building a 21st Century Digital Government* (May 21, 2012) ⇨
- OMB - *Digital Government: Building a 21st Century Platform to Better Serve the American People* (May 23, 2012) ⇨
- Executive Order 13642 - *Making Open and Machine Readable the New Default for Government Information* (May 9, 2013) ⇨
- OMB Memorandum M-13-13 - *Open Data Policy - Managing Information as an Asset* (May 9, 2015) ⇨

The rest of the Open Data community is

OMB Memorandum M-13-13 (pg. 1-2)

*Specifically, this Memorandum requires agencies to collect or create information in a way that supports **downstream information processing and dissemination activities**. This includes using **machine readable and open formats, data standards, and common core and extensible metadata** for all new information creation and collection efforts. It also includes agencies ensuring **information stewardship** through the use of **open licenses** and **review of information for privacy, confidentiality, security, or other restrictions** to release. Additionally, it involves agencies building or modernizing information systems in a way that maximizes interoperability and information accessibility, maintains internal and external data asset inventories, enhances information safeguards, and clarifies information management responsibilities.*

23, 2012) ⇌

- Executive Order 13642 - *Making Open and Machine Readable the New Default for Government Information* (May 9, 2013) ⇌
- OMB Memorandum M-13-13 - *Open Data Policy - Managing Information as an Asset* (May 9, 2015) ⇌

- Executive Order 13642 - *Making Open and Machine Readable the New Default for Government Information* (May 9, 2013) ⇨
- OMB Memorandum M-13-13 - *Open Data Policy - Managing Information as an Asset* (May 9, 2015) ⇨

Specific Outcomes

- Data Management Planning/Plan requirements
- Proliferation of general and domain specific data repositories
- Increased focus on *basic* documentation
- Increased focus on machine access to data and metadata

Additional Drivers

- Publisher requirements for verifiable data access statements - examples
 - Nature ⇨
 - PLOS | ONE ⇨
- General increased recognition of value and benefits of adopting Open Data Principles

Where and How You
Can Get Stuff

Full-service Geospatial Data Repositories (examples)

- New Mexico Resource Geographic Information System ⇨
- Texas Natural Resources Information System ⇨
- The National Map Small Scale Data Collection ⇨ (web services ⇨)
- Global Land Cover Facility ⇨

General and Domain-Specific Data Repositories (examples)

- Find one for yourself: re3data.org ⇌
- Figshare ⇌
- Dryad ⇌
- Zenodo ⇌
- American FactFinder ⇌, FTP server ⇌, CSV Files ⇌
- DataZoa (commercial) ⇌

dataZoaTM

Metadata Focused Data Discovery/Access

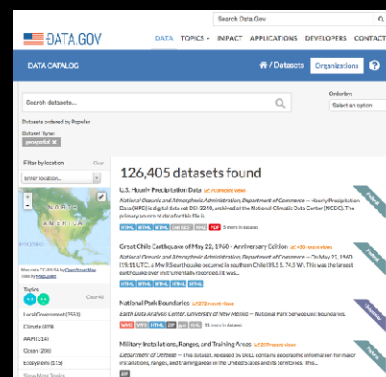

- data.gov ⇔ (data catalog ⇔)
- [GEOPLATFORM.gov](https://geoplatform.gov) ⇔
- DataONE ⇔
- Global Earth Observation
System of Systems (GEOSS)
⇔

(interlude)
Where Your Stuff
Can Go

Many of the Same Players

- NM RGIS
- A wide variety of the increasingly popular data sharing platforms
- Metadata publication/registration through data.gov or GEOSS

Interacting with Remote Data Sources

Some Concepts

- Open Standards
- Web Services
- Application Programming Interface (API)

Searching and Using data.gov

Open Geospatial Consortium Web Services

<http://sedac.ciesin.columbia.edu/maps/services#U.S.%20Census%20Grids>

in Quantum GIS

SOCIOECONOMIC DATA AND APPLICATIONS CENTER (SEDAC)

A Data Center in NASA's Earth Observing System Data and Information System (EOSDIS) — Hosted by CIESIN at Columbia University

Search SEDAC.
